ASSISTED BATHING

Reval Assisted Bathing

From low to high dependency

Bathing relieves psychological and physical stress and makes a difference to how well a person feels. Our goal is to make sure that everyone who uses a Reval bathing system enjoys the feeling of hygiene and cleanliness, irrespective of their mobility challenges, by making the routine comfortable and invigorating for patients and easy for caregivers.

With the largest range of bathing systems available Reval has the right system for your needs.

Low Dependency Systems

Low-High Dependency Systems

High Dependency Systems

SPA OPTIONS

Discover Sensational Bathing

Combining hydro-massage with sensory experiences, the Reval Spa range is designed to benefit those with disabilities, mental and behavioural disorders, as well as those who are visually, hearing and speech impaired. The ultimate in bathing technology, cleanliness and safety our Reval HydroSpa, Reval ColourSpa, Reval AromaSpa and Reval AudioSpa systems take relaxation to a whole new level.

Depending on which bath or pool you have chosen, you may modify it using some or all of our Reval Spa Options.

Our Reval HydroSpa option combines the therapeutic effects of bathing with a relaxing underwater muscle massage. Our bubbling baths come complete with air heaters, which maintain constant temperatures and keep patients warm, while diffusers located along the floor of the bath massage the patient and can be controlled for preference.

The Reval AromaSpa option uses the beneficial effects of essential oils for an aromatic bathing experience. Creating an atmosphere of serenity and relaxation, or stimulation and invigoration, the whirlpool's air streams infuse different essential oils, which have beneficial psychological effects and keep interior spaces freshly scented and hygienic.

When used as therapy, coloured lights are known to have positive psychological and physiological effects and can help maintain and restore health. Our Reval ColourSpa option has large integrated lights, which illuminate and colour the water, producing warm light and a soothing or stimulating ambience to mentally and emotionally engage the patient.

Amethyst

Our latest innovation is Reval AudioSpa, which combines the unique benefits of music. From high-low tones and vibrations, to wide ranging frequencies, sound has been proven to be highly beneficial as a treatment. Using music as a stimulus can result in deeper sleep, better balance and improved vitality.

CALECHE BATHS

Side access, semi-assistive baths

The Caleche is the ideal side transfer bath for either independent users or those requiring assisted bathing. They are suitable for use in hospitals, nursing facilities, care facilities and sheltered accommodation.

The Caleche and Caleche Compact are both stylish and functional enabling walk in access, side transfer from wheelchair or commode chair, as well as from mobile or ceiling track hoists. Their compact designs enable installation in the smallest of spaces and their large, internal dimensions provide ample room for users up to 200kg. The large, lockable, side access door provides added security.

Spa options available:   

Caleche & Caleche Compact Baths
4601.00 UK, 4502.10 UK, 4502.20 UK

CAPRICE BATHS

Bathing in Comfort

The highly affordable fixed height Caprice is ideal for users who have reasonable mobility and are able to step in and out of the bath independently or with some assistance. If users need to be hoisted, there is plenty of room under the bath to allow for a mobile hoist.

Spa options available:

Fixed Height
7104.01 UK & 7104.02 UK

CAPRICE BATHS

Bathing with Ease

The stylish variable height Caprice takes the aches and pains out of daily bathing routines. This model features push-button high/low adjustment for a safer, more comfortable nursing height. The height adjustment also enables the bath to be lowered to allow those with reasonable balance and mobility to step in and out. If users need to be hoisted, there is plenty of room under the bath to allow for a mobile hoist.

Spa options available:

Variable Height
7103.01 UK & 7103.02 UK

2 Metre Length
7100.1DS90R/Right Hand & 7100.1GS90R/Left Hand

CAPRICE BATHS

Effortless Bathing

The Caprice with variable height adjustment an integrated hoist and transfer system features the latest bathing technology. Designed to ease the stress and strain of the daily transfer and bathing routine, the user can easily be transferred in and out of the bath and the tub height adjusted at the press of a button. This makes light and dignified work of transfers, reducing the risk of back ache and pain for the care worker. The low profiling integral hoist saves space in the bathroom, allowing more room to work and eliminating the serious trip hazard of a mobile hoist. The transfer system and hoist are made from non-corrosive stainless steel and can also be used as a wet room shower chair or over a toilet commode.

Spa options available:

2 Metre Height
7100.1DS91R/Right Hand & 7100.1GS91R/Left Hand

Variable Height with Integrated Hoist
7101.01 UK & 7101.02 UK

TRANSCARE BATH

Posture Management at the Push of a Button

The Reval Transcare is a highly versatile bathing system, which is ideal for patients with reduced posture control. The vertical-raise side door allows easy patient access and the high-low function prevents risk of caregiver back strain. The Transcare system also has a unique tilting function, which allows patients with challenging conditions to semi-recline while fully immersed shoulder deep in water.

HydroSpa, AromaSpa, ColourSpa and AudioSpa sensory options are available with the Transcare, enabling patients to benefit from the therapeutic benefits of massage, colour, music and aromatherapy while enjoying a warm relaxing bath.

COCOON ERGO

7801.00 UK

Cocoon Variable Height Bathing Systems

Two variable height bathing systems with posture management in built into their designs. The new Cocoon range of high dependency bathing system raises the bar with several new and unique innovations designed to improve patient outcomes and well-being within the high dependency care environment.

The Cocoon "Ergo" concept has been cleverly designed to meet the ever demanding needs of a high dependency environment. The "Ergo" model has been developed so that a patient can be positioned in the bath "Cocooned" by the tubs fully supportive contours which provide excellent posture management and a safe and comfortable bathing experience. The "Ergo" can also be equipped with all four "Spa Care" options, Hydro/Aroma/Colour/Audio Spa. These options can be integrated individually or in combination to suit your budget or the specific patient outcomes, you wish to achieve. "Spa Care" options will totally transform the bathing experience, improve your patient outcomes and well-being.

Spa options available:    

COCOON KEYHOLE

7803.00 UK

Cocoon Keyhole Variable Height Bathing System

The new Cocoon “Keyhole” is a stylish variable height, high dependency bathing system for use with bath hoists and stretchers within the high dependency care environment.

The Cocoon “Keyhole” concept has an internally spacious design. Ergonomically shaped, the keyhole shape allows a patient to immerse deeper into the bath providing a more comfortable and relaxing experience. The tub has tall side walls and a flat sloped floor. This is designed to accommodate the space taken up by the thickness of a bath hoist stretcher. The design also provides more working space for care workers, which in turn makes bath tasks more user friendly and comfortable for care workers.

As with all Reval bathing systems, the “Keyhole” can also be equipped with all four “Spa Care” options, Hydro/Aroma/Colour/Audio Spa. These options can be integrated individually or in combination to suit your budget or the specific patient outcomes you wish to achieve. “Spa Care” options will totally transform your bathing experience and will improve your patient outcomes and well-being.
